

YOUR HEALTH COMES FIRST

MEDYCA

General Practice and Referrals

Medyca is one of the principal medical centers, with an agile organization that identifies itself by its high compromise with its personalized integral health service. We are on continuous growth, renewing ourselves for the benefit of our patients.

This area is important since it's the first contact the patient has with SIMNSA. That's why we offer you preventive medicine, where, in your first annual visit, your PCP will proceed with a general checkup alongside with a variety of studies to help prevent illnesses; all this without any cost.

For further medical visits, we have an excellent team of General Physicians that will provide you a high quality attention and if needed, will give you a referral to our Specialties Clinic.

We also have a Podiatry area, where we treat everything related to the care of your feet, including diabetic foot. We offer our patients free weekly talks on various Nutrition topics, too. Feel free to come visit our clinic, our highly qualified personnel will provide you a warm service.

Important Notices

- ✔ Service available to the general public.
- ✔ Make an appointment to reduce your waiting time.
- ✔ Ask for your annual courtesy consult.
- ✔ 2-Hour courtesy at Easy Park.

It is worth mentioning that we are a clinic where we provide you medical attention through consultations, so if you are experiencing an emergency, we ask you to seek immediate attention at a hospital where they'll be able to treat you.

We ask our patients to be 15 minutes early to their appointments.
